

# Fake helmets could lead to real injuries

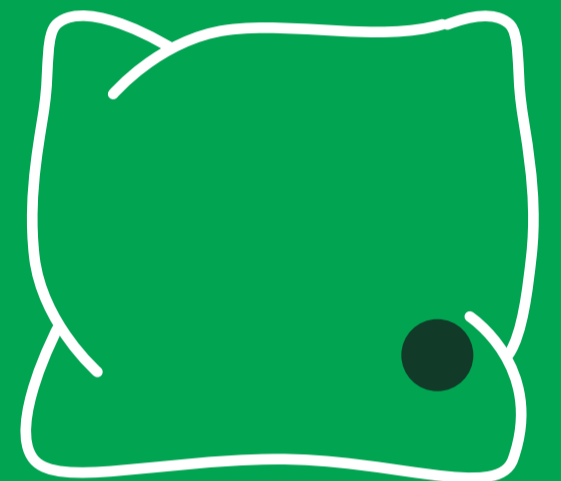

## Why are counterfeit bike helmets dangerous?

Made out of **cheaper or substandard materials** like plastic

Have **thinner cushioning** on the interior

Do not have the **protective fiber skeletons**

Do not meet **federal safety standards**

## How to identify fake bike helmets

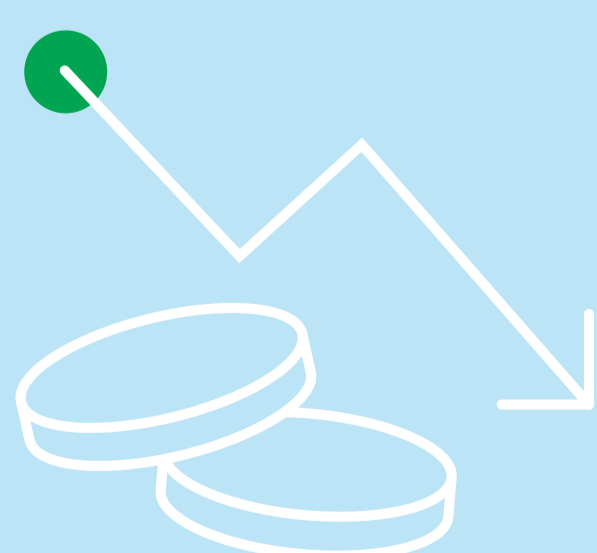

**Weigh less** than authentic helmets because of the cheaper construction

Do not have the **certification sticker**

**Often priced significantly below** the price of authentic helmets

**Did you find counterfeit helmets?**

**Report now**
