

## COVID-19 Export, Import Enforcement and Facilitation

CBP is committed to protecting American consumers from harmful imports such as counterfeit, substandard, or unauthorized medical devices and personal protective equipment. These items are being exported by those who seek to make a profit by selling illegitimate versions of these critical goods, which are in high demand due to the COVID-19 pandemic. Counterfeit, substandard, or unauthorized imports not only endanger the health and safety of American consumers, they also pose a threat to the economy by creating unfair competition for legitimate businesses, which can lead to revenue and even job losses over time.

**Protect yourself and your family by buying from reputable sources. If it seems like a steal, it is.**
